

LLM (Large Language Model)

LLM kya hai?

LLM ka poora naam Large Language Model hai. Yeh Artificial Intelligence (AI) ka ek model hai jo bahut bade text data par train kiya jata hai. Yeh insano ki tarah bhasha ko samajhne aur usme uttar dene ki kshamata rakhta hai.

LLM ke upyog

- Sawalon ke uttar dena
- Lekh, email aur report likhna
- Bhasha ka anuvaad karna
- Coding me madad karna
- Chatbots aur virtual assistants banana
- Text ka summary banana

LLM ke fayde

- Tezi se kaam karta hai.
- Bade data ko samajhne ki kshamata.
- Kai bhashaon me kaam kar sakta hai.
- Shiksha, business aur research me upyogi hai.

LLM ki seemayen

- Kabhi-kabhi galat jaankari de sakta hai.
- Hamesha latest jaankari uplabdh nahi hoti.
- Mahatvapurn faislon ke liye verify karna zaruri hai.

Kuchh prasiddh LLM

GPT (OpenAI), Gemini (Google), Claude (Anthropic), Llama (Meta), aur Mistral (Mistral AI).

Nishkarsh

LLM AI ki ek shaktishali takneek hai jo bhasha se jude kai kaamon ko aasaan banati hai aur bhavishya me iska mahatva aur badhne ki sambhavna hai.
