

FastAPI & REST API Interview Questions (Level-wise)

□ Easy

1. REST API kya hoti hai?
2. REST aur API mein kya difference hai?
3. HTTP kya hota hai?
4. HTTP Methods kaun-kaun se hote hain?
5. GET aur POST mein difference?
6. PUT aur PATCH mein difference?
7. DELETE request kya karti hai?
8. JSON kya hai?
9. Status code 200 ka matlab?
10. 201 aur 200 mein difference?
11. 400 aur 404 mein difference?
12. 401 aur 403 mein difference?
13. 500 error kab aata hai?
14. Endpoint kya hota hai?
15. URL aur Endpoint mein difference?
16. Path Parameter kya hai?
17. Query Parameter kya hai?
18. Header kya hota hai?
19. Content-Type kya hota hai?
20. REST API stateless kyun hoti hai?

□ Medium

1. Stateless ka kya benefit hai?
2. Idempotent method kya hota hai?
3. GET idempotent kyun hai?
4. POST idempotent kyun nahi hota?
5. PUT aur PATCH kab use karoge?
6. Caching kya hoti hai?
7. Authentication aur Authorization mein difference?
8. API Key aur JWT mein difference?
9. Bearer Token kya hota hai?
10. Pagination kya hoti hai?
11. Rate Limiting kya hoti hai?
12. Versioning of APIs kaise karte hain?

13. REST aur SOAP mein difference?
14. REST aur GraphQL mein difference?
15. Client aur Server architecture explain karo.
16. FastAPI kya hai?
17. Flask aur FastAPI mein difference?
18. FastAPI fast kyun hai?
19. ASGI kya hota hai?
20. Uvicorn kya hai?
21. Pydantic kya hai?
22. Request Body kaise validate hoti hai?
23. Response Model kya hota hai?
24. Dependency Injection kya hai?
25. Background Tasks kya hain?
26. Middleware kya hota hai?
27. CORS kya hota hai?
28. FastAPI automatic docs kaise banata hai?
29. Swagger UI kya hota hai?
30. OpenAPI kya hai?

□ Hard

1. REST constraints explain karo.
2. HATEOAS kya hota hai?
3. Safe Methods kya hoti hain?
4. Idempotency practically explain karo.
5. Optimistic Locking kya hai?
6. ETag kya hota hai?
7. Conditional Requests kya hoti hain?
8. API Gateway kya hota hai?
9. Reverse Proxy kya hota hai?
10. Load Balancer API architecture mein kya role nibhata hai?
11. API Security kaise implement karoge?
12. JWT secure hai? Agar nahi, to kyun?
13. OAuth2 ka flow explain karo.
14. Refresh Token kya hota hai?
15. REST API ko scalable kaise banaoge?
16. Async programming kya hai?
17. async def aur def mein difference?
18. FastAPI async kaise handle karta hai?

19. Event Loop kya hota hai?
20. Dependency Injection internally kaise kaam karti hai?
21. Database sessions kaise manage karoge?
22. SQLAlchemy ko FastAPI ke saath kaise use karte ho?
23. Alembic kya hai?
24. Redis FastAPI ke saath kyun use hota hai?
25. Celery kya hai?
26. FastAPI deployment kaise karte ho?
27. Docker ke saath FastAPI kaise deploy karte ho?
28. Nginx + Uvicorn architecture explain karo.
29. WebSocket aur REST API mein difference?
30. Streaming Response kya hota hai?

□ Generative AI + FastAPI

1. FastAPI se OpenAI API kaise call karoge?
2. Gemini API ko FastAPI ke saath kaise integrate karoge?
3. File Upload API kaise banaoge?
4. PDF upload karke LLM ko kaise bhejoge?
5. Streaming response kaise doge?
6. FastAPI mein chatbot API kaise banaoge?
7. LangChain ko FastAPI ke saath kaise connect karoge?
8. RAG API architecture explain karo.
9. Vector Database ko FastAPI se kaise connect karoge?
10. Background Tasks AI applications mein kahan use hote hain?

□ Top 15 Revision

1. REST API kya hai?
2. Stateless kya hai?
3. GET vs POST
4. PUT vs PATCH
5. 401 vs 403
6. Path vs Query Parameter
7. API Key vs JWT
8. FastAPI vs Flask
9. Pydantic kya hai?
10. ASGI kya hai?
11. Uvicorn kya hai?
12. async vs sync
13. CORS kya hai?

14. FastAPI + OpenAI integration kaise karte hain?
15. FastAPI itna fast kyun hai?
